RE: Five-Year Map Plan, City of Olivette

Dear Executive Director,

Pursuant to the requirements of Section 72.423, Revised Statutes of Missouri, and the rules established by the St. Louis County Boundary Commission, attached is the 5-Year Map Plan for potential boundary changes for the City of Olivette, Missouri. This submission was formally authorized by the City Council of the City of Olivette at its meeting on June 13, 2006.

City Manager Mike McDowell is officially designated as the City of Olivette's contact and representative concerning this submission and the City's future boundary extension plans.

You will note that our community has identified three unincorporated areas immediately adjacent to our current boundary for potential annexation over the next five years. Note, also that these three areas are the same unincorporated areas identified by Olivette in the previous five year submission.

Our submission is being submitted in paper and electronic (pdf) format.

Please advise regarding additional information or submission requirements.

Yours truly,

T. Michael McDowell, ICMA-CM
City Manager

Cc: City Clerk
Carlos Trejo, Planning and Zoning Administrator
