Notwithstanding the foregoing, any map plan which contemplates the incorporation of a municipality or the establishment of an unincorporated area shall be submitted by the chief elected official of St. Louis County, or by a citizen group by means of a petition signed by not less than five percent (5%) of the registered voters in the proposed municipality or proposed established unincorporated area, respectively.

Thirteen (13) printed copies of the map must also be included with the transmittal letter. Any Map Plan submitted pursuant to Section IV. A.1 of these Rules shall be of sufficient detail to delineate clearly which parcels of land are affected by the boundaries proposed and shall further designate how rights of way are affected by the proposal (*i.e.*, whether streets are included wholly within the proposed area or whether the boundary will track the center lines of streets). As a minimum standard, submissions may be compiled from St. Louis County base maps available from the Department of Revenue. Submissions may also be prepared based on digital versions of the St. Louis County base maps. The cost of maps shall be borne by the submitting party. Any map which is submitted digitally shall meet the following specifications:

6. If available at the time of submittal of the Map Plan, a proposed sequencing of boundary changes shall be provided with the transmittal letter. The proposing agent shall have sixty (60) days to respond in writing to the Commission's request.

It is the policy of the Commission to encourage such compromise, and the Commission shall evaluate Proposals based on such amended Map Plans prior to evaluation of Proposals which do not embody such compromise.
- F. Binding Effect of Map Plan** - The Map Plan as submitted or as amended by April 15, 2001, and each sixth year thereafter, shall remain on file with the Commission, and shall be the limit of permissible boundary changes and established unincorporated area proposals until a new five-year planning cycle begins. The Commission will not accept any proposal for annexation, incorporation, or established unincorporated area which has not been previously submitted to the Commission for Map Plan review in accordance with RSMo 72.423.

ARTICLE X

SUBSTANTIVE REVIEW

A. Boundary Change Proposals

Upon conclusion of the public hearing and based upon the record of that hearing, including all submittals relative to the proposal, the Commission shall deliberate and review any proposed boundary change. During its review of the boundary change proposal, the Commission shall determine if the boundary change will be in the best interest of the municipality or municipalities and unincorporated areas affected by the proposal and the areas of the County next to such proposed boundary. In doing so, the Commission shall consider, at a minimum, the following factors:

1. The impact, including but not limited to the impact on the tax base or on the ability to raise revenue, of such proposal on:
 - a. The area subject to the proposed boundary change and its residents;
 - b. The existing municipality or municipalities, if any, proposing the boundary change and the residents thereof;
 - c. Adjoining areas not involved in the boundary change and the residents thereof;
 - d. The entire geographic area of the County and its residents;
2. A legal description of the area to be annexed, consolidated, or subject to the transfer of jurisdiction;
3. The creation of logical and reasonable municipal boundaries in the County and for such purpose the Commission shall have the ability to make additions, deletions and modifications which address legal boundaries, technical or service delivery problems or boundaries which overlap those of other proposals; however, such additions, deletions and modifications shall not make substantive changes to any proposed boundary petition;
4. The present level of major services provided by the municipality or other provider, provided to the unincorporated area by the County, and proposed to be provided by the annexing municipality or municipality to be incorporated or consolidated, including, but not limited to police protection, fire protection, water and sewer systems, street maintenance, utility agreements, parks, recreation and refuse collections;
5. A proposed time schedule whereby the municipality or proposed municipality plans to provide such services to the residents of the area to be annexed, incorporated or consolidated within three (3) years from the date of the municipal boundary changes is to become effective;
6. The current tax rates of the areas subject to the proposal;
7. What sources of revenue other than property tax are collected or are proposed to be collected by the municipality or proposed municipality;
8. The extraordinary effect the boundary change will have on the distribution of tax resources in the County;

9. How the municipality or proposed municipality proposes to zone any area not presently incorporated;
10. The compactness of the area subject to such proposal;
11. When the proposed boundary change shall become effective.

B. Established Unincorporated Area Proposals

In reviewing any established unincorporated area proposal, the Commission shall approve such proposal if it finds that continued provision of local services to the area by the County will not impose an unreasonable burden on County government and that such designation is in the best interest of the unincorporated areas affected by the proposal and the areas of the County next to such area. In making its determination, the Commission shall consider the following factors:

1. The impact, including but not limited to the impact on the tax base or on the ability to raise revenue, of such proposal on:
 - a. The area subject to the proposed established unincorporated area and its residents;
 - b. Adjoining areas not involved in the proposed established unincorporated area and the residents thereof; and
 - c. The entire geographic area of the County and its residents;
2. A legal description of the proposed established unincorporated area;
3. The creation of logical and reasonable boundaries in the County, and for such purpose the Commission shall have the ability to make additions, deletions and modifications which address legal boundaries, technical or service delivery problems or boundaries which overlap those of other proposals; however, such additions, deletions and modifications shall not make substantial changes to any established unincorporated area proposal;
4. Whether approval of the established unincorporated area proposal will result in unreasonable difficulty in provision of services by the County;
5. The effect approval of the proposed established unincorporated area will have on the distribution of tax resources in the County;
6. The compactness of the area subject to such proposal.

ARTICLE XI DECISION

A. At such time as the Commission determines the substantive review of a proposal is complete, the Commission shall at an open public meeting, by roll call vote, determine whether a proposal is to be approved or disapproved.

1. A vote approving or disapproving a proposal may occur in the event a simple majority of the members are present at the public meeting and only upon a motion made by a commission member present at the meeting which is duly seconded.
2. The motion shall be carried by a majority vote of those present at the meeting. Any vote cast by a member to abstain shall be counted with the majority, except in the case of a tie vote, in which case the motion is rejected.
3. The Commission shall issue a document indicating the reasons the proposal was approved or disapproved. No vote shall be taken on that document unless the Commission has an opportunity to review a preliminary finding, as prepared by staff.
4. For a boundary change proposal:
 - a. The Boundary Commission shall approve such proposal if it finds the boundary change will be in the best interest of the municipality or municipalities and unincorporated areas affected by the proposal and the areas of the County next to such proposed boundary.
 - b. The Commission shall not approve any boundary change proposal in which more than fifty percent (50%) of the combined land subject to the proposal is unincorporated area or areas unless the combined area subject to the proposal has a population of more than ten thousand (10,000) persons.

B. The process for approving or disapproving the proposal shall be as follows:

1. Within four (4) months of the official submittal of a proposal for a:

Simplified Boundary Change:

- Annexation**
- Transfer of Jurisdiction between municipalities**
- Transfer of Jurisdiction between a municipality and the County**

the Commission shall determine whether the boundary change shall be approved or disapproved.

- a. Approved. If the Commission finds in favor of the proposal,
 - i. but subject to voter approval, or
 - ii. but for which no vote is required,

the effective date of the change will be the date set forth in the Commission's written report.

b. Disapproved. If the Commission finds against the proposed boundary change, it shall issue in writing the reason(s) for such disapproval.

2. Within nine (9) months of the official submittal of a proposal for an:

- Incorporation**
- Annexation**
- Consolidation**
- Combined Proposal**

the Commission shall determine whether the boundary change proposal shall either be:

- a. Approved. If the Commission finds in favor of a boundary change, it shall submit the question to the voters residing within the area(s) subject to the proposed boundary change.
- b. Disapproved. If the Commission finds against the proposed boundary change, it shall issue in writing the reason(s) for such disapproval except that final action may be deferred on part or all of a boundary change proposal when necessary to accommodate an overlapping boundary change or established unincorporated area proposal.
- c. The approval or rejection of a Combined Proposal shall be based upon the resulting new municipality as a whole meeting the requirements of Mo. Rev. Stat. 72.403.

(1) If the Commission approves the combined proposal, then, to be adopted, the Combined Proposal must be approved by a separate majority of the votes cast in each municipality to be consolidated, each separate unincorporated area to be annexed, and the proposing municipality. If a Combined Proposal also contains a Simplified Boundary Change, the Simplified Boundary Change shall be submitted to the voters of the areas as required under the Rules, Article XI (B) (1) if so directed by the Commission; if the Commission votes that a Simplified Boundary Change shall become effective without a vote as permitted in the Rules, Article XI, then the Simplified Boundary Change will become effective only if the Combined Proposal is approved by a separate majority of the votes cast in each municipality to be consolidated, each separate unincorporated area to be annexed and the proposing municipality, and as may be required for approval of an unincorporated pocket.

(2) If the Commission approves a Combined Proposal that includes an unincorporated pocket, then, to be adopted, the Proposal must be approved by a separate majority of the votes cast in each municipality to be consolidated, each unincorporated area to be annexed, and the proposing municipality, and there must be a majority of the total votes from the municipality that would result from the combined proposal and unincorporated pocket.

3. Within nine (9) months of the official submittal of a proposal for an:

- Established Unincorporated Area**

the Commission shall issue findings approving or disapproving such proposal except that final action may be deferred on part or all of a boundary change proposal when necessary to allow an election with respect to an overlapping boundary change or established unincorporated area proposal.

- a. Approved. If the Commission finds in favor of the proposal, it shall submit the question to the voters residing within the area subject to the proposed established unincorporated area.
 - b. Disapproved. If the Commission finds against the proposal, it shall disapprove the proposal. The Commission shall issue in writing the reason(s) for such disapproval.
4. The Commission may defer final action on all or part of a boundary change proposal or proposal for an established unincorporated area beyond the periods provided for its consideration in order to allow an election with respect to an overlapping boundary change or established unincorporated area proposal in order to maximize the ability of voters to determine its own status. Such deferral may be ordered only when the proposal granted such priority is filed with the Commission no later than sixty (60) days after the proposal on which action will be deferred and only when the Commission determines that the population of the overlapping area is a greater proportion of the proposal given priority than that of the proposal on which action is deferred. The Commission shall take final action on the deferred proposal within forty-five (45) days of the election at which the proposal granted priority is decided. The proposing agent may modify the proposal in accordance with the results of the election.
5. Notwithstanding the forgoing time provisions, any proposal which has not been approved by the Commission by January first of the next review period year shall expire without further action.

ARTICLE XII OFFICIAL RESUBMITTAL

- A. A boundary change proposal which has been disapproved by the Commission and which is resubmitted with changes to the Commission shall be treated as a new official submittal; however, the Commission may waive the public hearing requirements if it determines that a public hearing on the proposal is not necessary to achieve the objectives of Section 72.400 to 72.423 R.S.Mo.

- B. If a boundary change proposal is disapproved by the voters, no boundary change proposal which contains more than sixty percent (60%) of the area of the disapproved boundary change shall be submitted to or processed by the Commission any sooner than two (2) years after the date of the disapproved boundary change.

- C.
 - i. If a combined boundary change proposal is approved by the voters in some of the voting jurisdictions subject to the combined proposal and rejected by voters in some of the areas subject to the combined proposal, the proposing agent may resubmit a proposal for a boundary change which includes all or part of only the areas that voted in favor of the original combined boundary change, and not be required to wait the two (2) year period stated in subpart (B) above for resubmission or the requirements of subpart (B) for the voting jurisdiction(s) that voted in favor of the combined proposal by following the process outlined below.
 - ii.
 - 1) If after a vote on the combined proposal in which some of the voting jurisdictions voted in favor of the combined proposals and other voting jurisdictions voted against the combined proposal, the proposing agent may submit a new petition within 30 days after the vote on the combined proposal has been certified, seeking approval of the annexation(s) or consolidation(s) of the voting jurisdictions that voted in favor of the combined proposal. The commission may approve a boundary change comprising only those municipalities and/or unincorporated area(s) where a majority of the voters in each area previously approved the boundary change; or a majority vote of the resulting municipality in a combined proposal that includes an annexation of an unincorporated pocket, in the following manner.
